Dedication

We feel deeply honored and take great pleasure in dedicating the 1952 Log to one so worthy, Mr. James Worley.

Mr. Worley's years of service in his teaching profession are well worthy of mention and are a generous donation to the good of the people of Mohnton. Hard work was necessary to attain such an honorable position; he has instilled in his students the same qualities of industry, diligence, and honesty that he possesses.

Mr. Worley's life has been a fine example to all who have known him. His influence has benefited those who have been associated with him. We deeply respect this outstanding educator, Mr. James Worley.

Foreword

The 1952 Log attempts to illustrate and explain the many curricular activities in which we participated through our years as students.

If our work at Mohnton High School will help to improve some lacking thing, then our time has been well spent. Our work in the past is made obvious by this yearbook. Although the future is undecided, we believe that our instructions at Mohnton will help us to improve ourselves and our country.

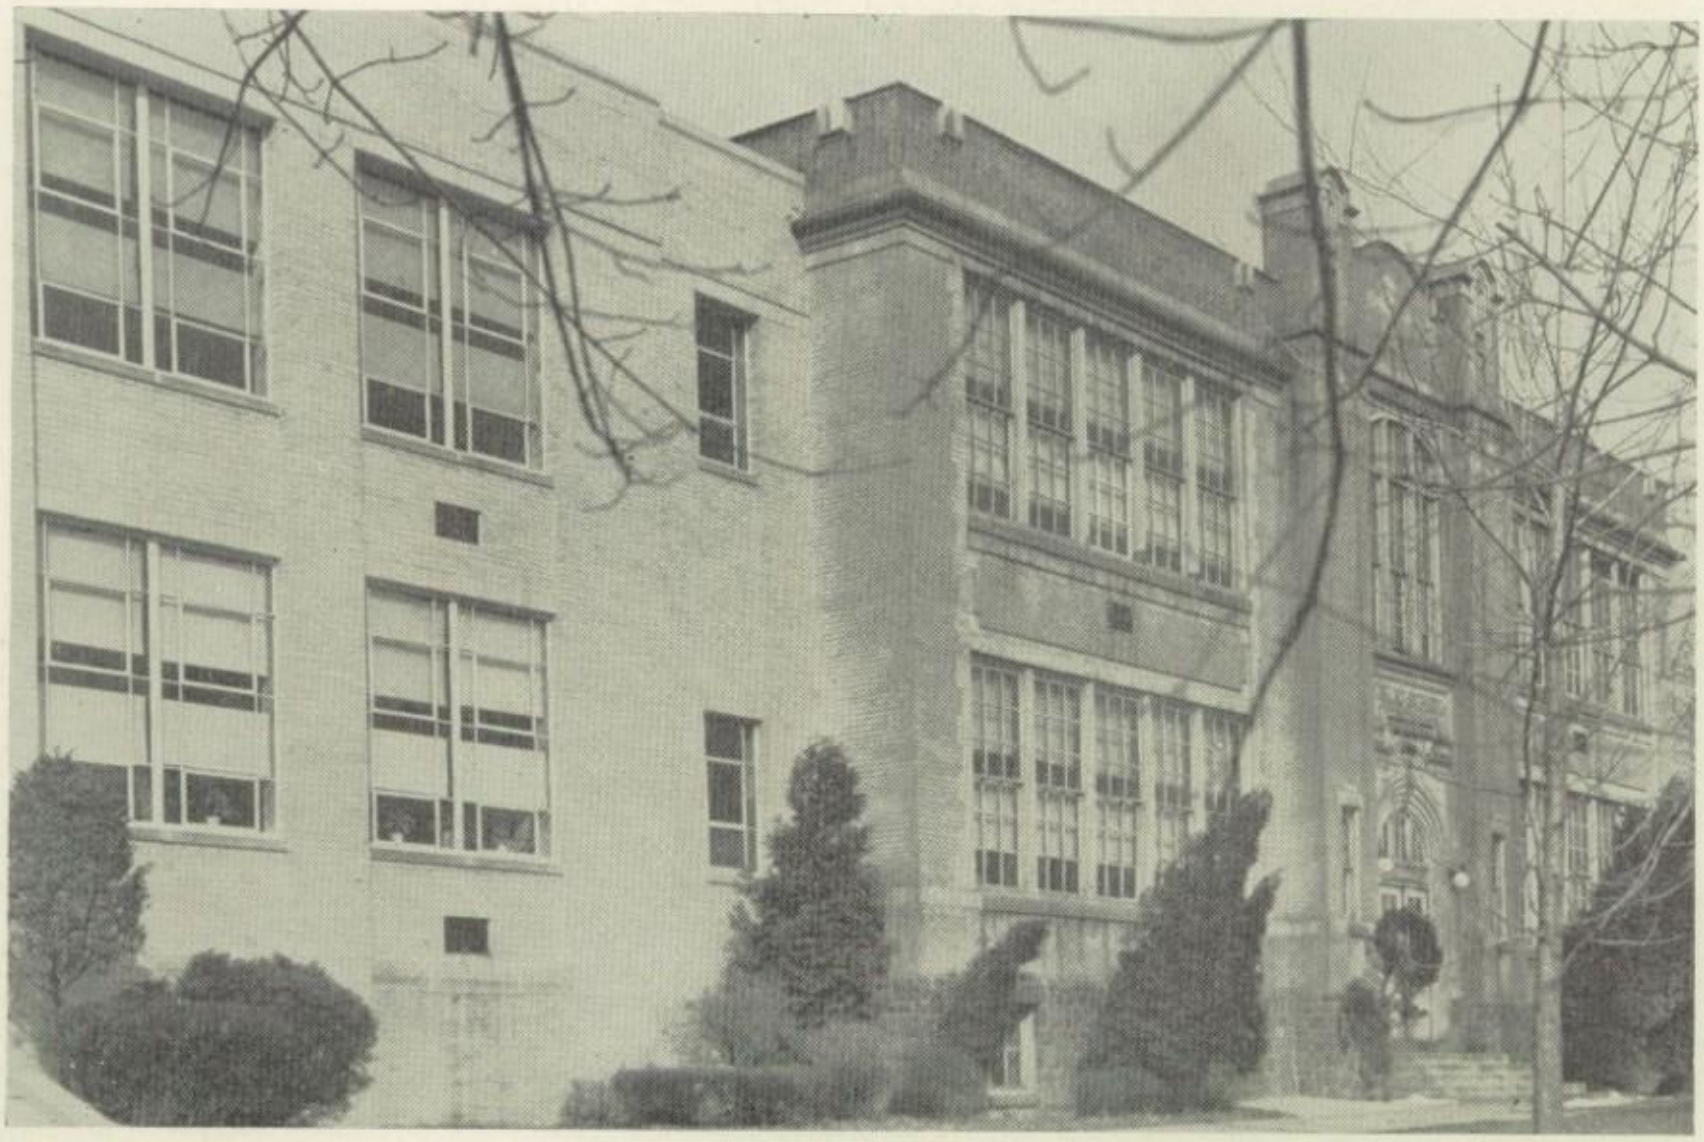
Alma Mater



I

Up on a hill top
Stands a school we all admire,
Nobly its portals
The truth inspires.
We shall always cherish
The days within its walls
And remember friendship
It for us recalls.

II

Years passing swiftly
Ne'er from our hearts shall turn
Truth and uprightness
Which here we learn.
Whate'er the future
We trust that we shall be
Better men and women
Having learned of thee.

CHORUS

Mohnton, dear Mohnton,
Our abode of high school days,
Always to Mohnton
We shall sing our praise.

YOUR LIFE'S WORK

The time is now! Begin at once to live, and count each day as a separate life.

The man or woman "going places" is always studying himself, eliminating traits which irritate other people, strengthening positive traits. This develops better personality every day.

Nobody ever really gets too big to make a mistake. If you reply to a correction with a fast comeback, you prove that you cannot be improved. Learn to accept criticism gracefully.

So rare is genuine reliability that people who have it get ahead even though they may lack other attributes. Be reliable in all that you undertake.

Throw away all ambition beyond that of doing the day's work well.

The travelers on the road to success live in the present, heedless of taking thought for the morrow. Live neither in the past nor in the future, but let each day's work absorb your entire energies, and satisfy your widest ambition.

This is my charge to you, class of 1952.

H. J. Bigony, Jr.

President of Board of Directors.

Principal's Message

MR. IRA HOFFMAN, *Principal*

"Toil is the source of all accomplishment", and ultimate success is meted out in direct proportion to the amount of effort expended.

As you journey along life's highway, you will meet up with people who, it would appear, are very successful but who seemingly do not toil or work. They are people, by reason of their inheritance, who are just "getting by" but who run the risk of becoming destitute because of the lack of effort on their part to produce an equal amount of goods they consume. You will also meet up with people who work hard but who never seem to be able to accomplish anything. Any number of factors might be involved when labor obtains unsatisfactory results, the most damaging of which, however, is that of the creation of a defeatest attitude.

The formula a + r + e + a = R is worthy of mention at this time. The following explanation will simplify it to a point where doubt disappears and courage enters the active mind. A stands for ability, R stands for reason, E stands for efficience, A for action, and the sum total (added in the right proportion) equals Reward. Let the letters A, R, E, and A be represented by lines of equal length, place them at right angles to each other, end for end, and you will form a square. This square represents a unit, the whole content, the area, or what is often referred to as a "four-square" individual.

It is my sincere hope that you will strive, at all times, to be a "four-square" individual and to work diligently at whatever worthy occupation or profession you choose, so that you will merit the rewards of accomplishment resulting from the dignity of your own labors.

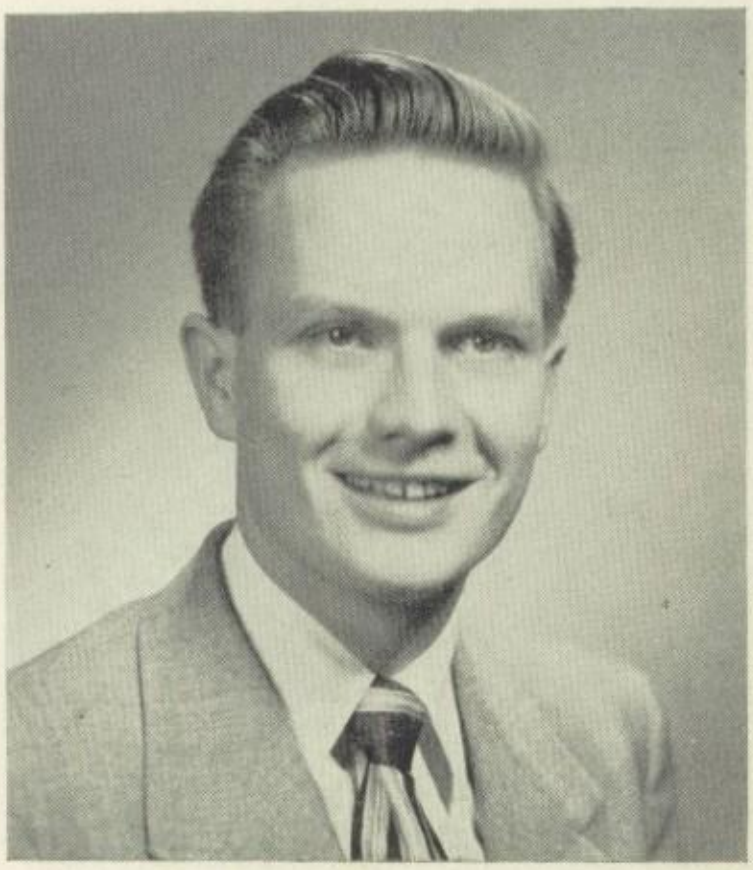
SENIORS

Advisor's Message



"Whom then do I call educated? First, those who control circumstances instead of being mastered by them, those who meet all occasions manfully and act in accordance with intelligent thinking, those who are honorable in all dealings, who treat good naturedly persons and things that are disagreeable, and furthermore those who hold their pleasures under control and are not overcome by misfortune, finally those who are not spoiled by success." Isocrates.

Many years ago Isocrates tried to define an educated man; I would recommend that you read it. You have had twelve years of schooling — as you graduate you go as educated men and women, and your education will continue.

Knowledge is power. Throughout your life you will be constantly using this power. Yet I must hope that you will meet all situations intelligently and honorable for

"O it is excellent
To have a Giant's strength,
But it is tyrannous
To use it like a giant."

—Lord Bryce.

May you use the power of an education to contribute to your community, nation, and world.

May God's blessing be with you.

George V. Kirk.

Class Poem

When we entered our castle
We were very green,
Eager to gain knowledge
And all the pleasures we had seen.

This all seemed so mature,
For work it seemed to be
To set our minds on this chore
Of seeking guidance free.

It took a lot of work
As the tasks continued hard,
But these are the roads we sought
And we traveled with friendly words.

We can now look back upon those days,
The richness we gained from vigilence,
We can soon apply it to the jobs ahead
And work with the utmost diligence.

CLASS MOTTO: *Work, and you shall be rewarded.*

CLASS FLOWERS: *Carnations.*

TO MY CLASSMATES:

As President of the class of 1952, I would like to wish each and every one of you much luck and happiness in the future.

Our theme this year is work. In our many years at Mohnton no matter how much or how little we have worked, I believe we all learned a great deal which will help us to step into this world of unrest as responsible citizens.

Though many of us are going to further our educations, we can always look back to our high school days as being some of the happiest and most formative in our lives. Those of us going out into the world for jobs will realize how valuable our high school education has been. Lost work in school can never be regained. I hope we will all put into good use the knowledge we have received here.

Sincerely,

THEODORE A. ROSCHER,

Class President.

Senior Prom and Supper

In our Junior year we invited the Seniors and Alumni to the annual Junior Prom, the Starlighters Ball. We danced to the music of Jack Heath and his orchestra.

A beautiful effect was created by the stars, a crepe paper ceiling, and the wishing well which was the centerpiece. Punch and sandwiches were served to our guests.

Our Senior Class held a baked ham supper at the Calvary Church Social Hall. It was supervised by Mrs. Jensen, the home economics teacher. The Senior girls acted as waitresses and made sure our patrons took a guess on the guess cake. The boys checked coats and acted as cashiers.

With the co-operation of the members of the class, mothers, advisors, and patrons, our class supper was successful.

Class History

1948-1949

September found thirty-three young Freshmen eagerly awaiting their first day at Mohnton. These students, under the supervision of Mrs. Newkirk, were given their first high school training. After being enrolled, the following officers were elected: David Park, president, Fern Messner, vice president; Ted Roscher, secretary-treasurer.

1949-1950

Our Sophomore year proved to be even better than the Freshman year. With one year of experience behind us, we felt like veterans and were ready for the coming year. It was very successful. A trip to the zoo and several doggie roasts were some of the main attractions. The class advisor was Miss Lower, and the officers were Anna Kohl, president; Ted Roscher, vice president; and Mary Lutz, secretary-treasurer.

1950-1951

Juniors! Only one step away from the top. The highlights of our Junior year were the magazine campaign, the class play, the class supper, and the prom. We profited a great deal from working together on all these class projects.

Our class advisor was Miss Heckman, and our officers were Mary Lutz, president; Anna Kohl, vice president; Marcelyn Schnader, secretary; and John Lutz, treasurer.

1951-1952

Seniors at last! With our goal practically accomplished we worked hard toward graduation. The Senior year was highlighted by the resignation of Mr. Metcalf, the principal, after which Mr. Hoffman took over.

As Seniors we won the magazine campaign. We also sponsored the class play, supper, and last but not least, the class trip. We spent three days in Washington.

Mr. Kirk was our Senior advisor and the officers were Ted Roscher, president; John Lutz, vice president; Mary Lutz, secretary; and David Park, treasurer.

Approaching the doors of Mohnton High School, our thoughts were of the work before us. With striving hard and making many attempts, we were going to reach a goal.

This new experience of entering seventh grade was a thrill for us. We were ready to meet and become accustomed to new ideas and to get rid of old ones. Then we were ready to look ahead.

Looking back to when we were in the group asking, "What's new in high school?" we remember we were very new as seventh graders. School has not been a dreamer's paradise, but a place for seeking success. Work and pleasure have gone hand in hand. We will miss this work and companionship, but we will try to find a place in life where we are needed. We hope we will be able to reach our ideals and become leaders.

The girls have really taken an interest in this new club. It was organized at the beginning of the second term. Under the leadership of Mr. Dubs, the girls have been taught different whirls and twirls. The club is open to all girls from grades seven to twelve.

Evelyn Thompson, one of the eighth graders, will act as the third drum majorette next year. She was chosen by Mr. Dubs and Fern Messner, who assisted with the club.

Academic Typing Club

FIRST ROW—G. Shambaugh, R. Werner, G. Althouse.
SECOND ROW—S. Goldberg, M. Niebaum, B. Lynn, C. Epler, L. Miller.
THIRD ROW—A. Martin, T. Derr, J. Rutfner, J. Fisher, G. Miller.
STANDING—Miss Oelschlager, *advisor;* A. Good, J. Price, C. Epler, H. Weller, G. Werner, J. Leid, R. Gehman, K. Seifrit, M. Grill, M. Lutz, C. Lebo.

The Academic Typing Club was begun by Miss Oelschlager as an aid to those students who would not ordinarily learn to type. The academic pupils are very eager to succeed in this new field. Neat and accurate work which is completed rates an award and the satisfaction of knowing a new job has been done well. Mimeographing and stenciling are taught to the more advanced students.

Violin Club

Mr. Worley, *advisor;* A. Miller, E. Deppen, S. Lutz, K. Lutz, R. Krick, D. Werner, R. Trostle, E. Houck, B. Longenecker.

The strains of violin music have become familiar to the students of Mohnton High School. Before classes in the morning and during activity periods, Mr. Worley's students are hard at work to improve themselves. Mr. Worley has been supplying Mr. Dubs with violinists for his orchestra.
